

Circle Graph - III

1. Refer to the circle graph on your right and answer the questions.

- How many donors have blood group AB?
- Which blood group belongs to the most number of people?
- How many more people have blood group type O than AB?
- Arrange the four blood group types in the increasing order in terms of number of people.

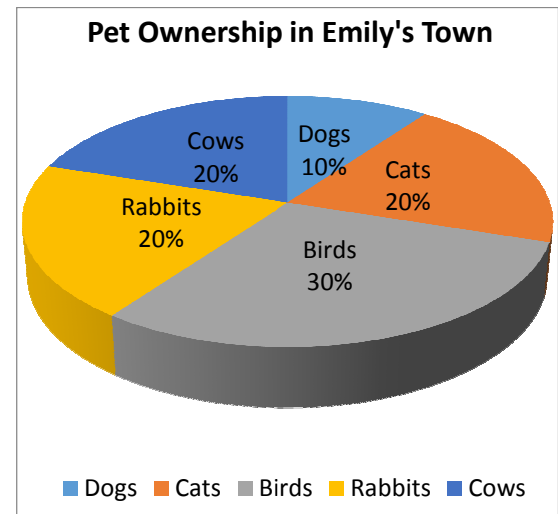

Solution:

-
-
-
-

2. Emily collected the data about pet ownership in her town. All her respondents owned only one kind of pet. Refer to the graph to solve the problems.

- How many people own dogs if 100 people were surveyed?
- How many more people have birds than cows?
- If 60 people own birds, how many people were surveyed in total?
- TRUE or FALSE? More than 50% of the people have either birds or cats.
- If 1,000 people were surveyed, what is the total number of people who either have dogs and cats?

Solution:

-
-
-
-
-
