

Bar Graphs - II

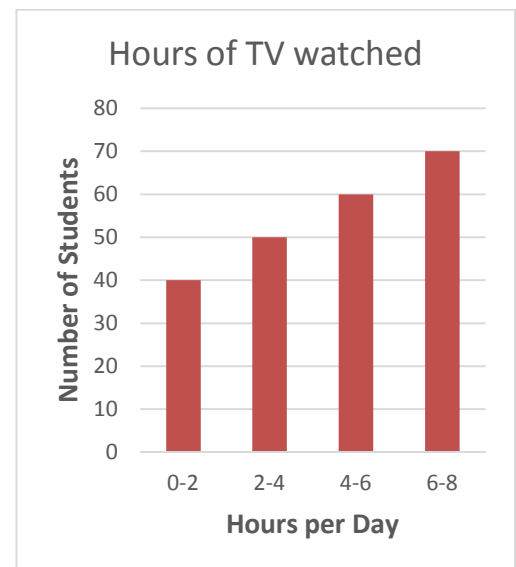

1. Use the given bar graphs to answer the following questions.
- In which year the profit was the biggest?
 - In which two years was the profit exactly same?
 - What was the profit in the year 2012?
 - How much more was the profit in the year 2013 than in year 2010?
 - What is the total profit in all four years?
 - Is the company progressing or declining?

Solution:

-
-
-
-
-
-

2. Students at Harkin Elementary School were interviewed to study their TV-watching schedules. The results of the study are shown in the graph on your right. Use the graph to solve the following problems.
- How many students watch TV for more than 6 hours per day?
 - How many students watch TV for less than 2 hours?
 - How many students watch TV for less than 4 hours?
 - How many students were surveyed?
 - What is the difference between the number of students who watch TV for more than 4 hours and those who watch TV for less than 2 hours per day?

Solution:

-
-
